Cater Nation

Cater Nation gives you one-stop shopping for your business drop-off catering needs. Our customers include Fortune 500 companies, professional and financial service firms, medical and other sales professionals. And while having one site to go for ordering is convenient, with Cater Nation you also get the absolute best customer care experience in the online food ordering industry, according to third-party review aggregator, Trustpilot.

Why Cater Nation? Consider the following:

- Order catering online from a wide variety of brands and cuisines at same-as-direct prices, no upcharges allowed. Order at a time that fits YOUR schedule, not somebody else's.
- One point of contact for all aspects of order fulfillment – contact us via email, text, phone or chat.
- Generous rewards program, with opportunities to receive 2-8% in spending rebates in the form of gift cards (Amazon, American Express or Target) or credits toward future orders.
- We get your orders confirmed (sometimes twice!) with our fulfillment partners and notify you that your order is on schedule.
- Restaurant and Caterer reviews available to assist you in the shopping process, we also post the timeliness percentage of our partners over the past 12 months.
- Order issue? Let us represent your interests to get you the desired resolution.
- Receipts emailed to you and sent automatically to Concur after order fulfillment is completed.
- Speaking of receipts, no more signing receipts on-site and pressure to add gratuities, you can pre-select a driver gratuity when ordering online!
- Store multiple addresses, secure credit card information, redeem and access your reward point history, and see all your past and future orders in "My Account".
- We are NOT a food delivery service. We would rather your orders be delivered by the managers and owners of our fulfillment partners.
Cater Nation works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the Concur App Center in the Concur App Center under Apps for Me at www.Concur.com/AppCenter. For more information about Cater Nation, visit their website at https://www.caternation.com/.

TwoGo

Travelers share rides in their Concur itineraries, seamlessly with TwoGo.

TwoGo is a mobile, cloud-based carpooling service, optimized to integrate smoothly into daily work routines and to match shared rides efficiently.

Matching is proactive and fully automated, meaning the least possible effort for you. No searching of lists. TwoGo automatically proposes potential matches for identifiable segments of your itineraries.

Linking your Concur account to TwoGo provides you with valuable options to ease travel, network with colleagues and share costs at the same time:

- **Specify extensive matching criteria**: You can tell TwoGo to be match on strict criteria including ride as driver/ passenger/ either, departure and arrival times, individually customized route, length of detour (minutes), proportion of the route to share, avoiding specific individuals, matching with a closed circle of colleagues, or (for women) restricting by gender.
- **Use social media or email to actively invite friends and colleagues** to share rides.
- **Be part of a secure and trusted community**: TwoGo checks the identity of its corporate users, which helps build up trust. Naturally, personal information is protected through highly secure measures and procedures in place.
- **Manage the rides the way that is most convenient for you** across the various integrated platforms: Use the electronic calendar, the web application at www.twogo.com, or native mobile clients (iPhone and Android).
- **Set flexible ride options**, including shuttles, rental and temp cars.
- **Use various ride patterns**, including roundtrips, recurring rides, and multiple ride intents for different days.
- **Delegate communication**: TwoGo seamlessly manages the entire communication chain, including defining the right meeting points for participants at the right time. No other communication among participants is necessary.

Get the most out of enterprise ride sharing. Connect TwoGo and your Concur Travel account.

TwoGo by SAP works with Travel for Concur Standard and Travel for Concur Professional. It will be available soon in the Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about TwoGo, visit their website at https://www.twogo.com/.

Qwykr

Qwykr is a complete ground travel solution for the business traveler. Qwykr features regulated, professional drivers for safely and securely transport-ing their employees. The Qwykr app handles the complete process from arranging the ground travel to connecting the traveler with their driver, processing the payment and making the insertion directly into the traveler's expense report with complete IRS required documentation.

For the Concur user, Qwykr automatically enters the receipt to the rider's expense report with all of the proper IRS required documentation included. This assures complete compliance with IRS reporting regulations.

Qwykr works with Expense for Concur Standard and Expense for Concur Professional. It will be available soon in the Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about Qwykr, visit their website at http://qwykr.com/.

Important App Update

Concur & Starbucks Integration Deactivated

Unfortunately, technical issues with the Starbucks e-receipt integration for Concur have caused a poor user experience and some receipts have failed to post. Therefore, the integration has been deactivated indefinitely.

Starbucks card and app usage outside of the integration with Concur are not impacted, and there is no action required on your part.

If you have experienced issues, please use the History function in your Starbucks mobile app or Starbucks account online to manually create a transaction if it hasn't been posted.

We apologize for any inconvenience this may cause. We will continue provide fully supported third-party apps via the [Concur App Center](#) that make it easier to plan the perfect trip, manage company spend, and make expensing effortless.
