Taiwan Taxis

Taiwan Taxi leverages cutting edge technology to satisfy customers' transportation requirements and to keep employees safe. There is no need for employees to pay in cash and e-receipts are sent to Concur Expense automatically for effortless expensing.

Taiwan Taxi records the GPS coordinates of pick-up and drop-off locations and can even record the taxi ride time as required by some companies, giving companies increased visibility into ground transportation expenses. With straightforward, upfront pricing, companies also can enjoy cost savings on ground transportation.

Taiwan Taxi works with Expense for Concur Standard and Expense for Concur Professional. It will be available soon in the Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter.
